

SMART RECRUITMENT SPEAK YOUR LANGUAGE!

To cope with increased demand in the recruitment of foreign workers locally, Smart Group Recruitment Solutions has employed a full time 'Resourcer' who speaks four languages including English, Russian, Latvian and Polish. Born in Poland, Natali Modnas has been appointed to work alongside the Industrial Division within the Yeovil branch to aid in the search for a selection of foreign temps for two major contracts recently won by the Group. Helen Stacey, Director of Smart Recruitment comments, "Natali has been appointed to aid communications between ourselves, our candidates and our clients. Managing relationships is key to this role and Natali ensures that everyone's expectations are fully understood and that as a company we can strive to meet and often excel customer expectation. It is no coincidence that since this appointment we have won two major contracts which rely heavily on foreign workers to maintain their workforce."

Since Poland joined the EU in May 2005, 73,545 Poles have signed the British government register of migrant workers:* nearly half of that figure is made up of new immigrants. Poles are by far the largest national group to have come from Eastern Europe in the past year - there have been 20,000 from Lithuania, 13,500 from Slovakia, and 9,000 from Latvia. According to the Home Office, only 21 of the 133,000 east European migrant workers registered have signed on the dole and this can, in part, be attributed to the forward thinking approach of proactive recruitment agencies such as Smart Recruitment.

The Smart service is broad covering a diverse range of products, services and industries. Candidates and clients benefit from the company's branch network which is technology driven through the Smart database; this links to every desk in every branch, providing instant access for candidate skill matching, availability and positions available.

With turnover in excess of £10 million, the Smart story has been successful since its launch in 1999 and bodes well for further growth as it heads towards its 7th anniversary in 2006 embracing new challenges with their trademark proactive and dynamic approach.
